

## We're Here For You

At Harris, we're committed to doing everything we can to ensure the safety of our employees, customers and partners. We are here to support you during this unprecedented time. Harris will continue the service and operations of our clients as we fulfill our commitment to meeting the needs of our customers and servicing essential infrastructure.

We are doing all we can to ensure buildings are running smoothly and efficiently, whether you're facilitating and managing operations onsite or working remotely. Harris offers both onsite and remote service options for their customers. In our facilities, we are following containment guidelines from the World Health Organization (WHO), the U.S. Centers for Disease Control and Prevention (CDC) and county health departments. Our team has received guidance on maintaining regular preventative measures, handling possible COVID-19 exposure and communicating with the customer on any jobsite developments.

As always, the health, safety and well-being of our customers, our team members and our communities is of chief concern. We continue to monitor this quickly evolving situation and are here to assist you, as needed.

*Thank you, as always, for your business and partnership.*
